Day Length for Flowering: Long day

Do NOT bury the crown of the plug

## Description

Mid-sized, full, and compact mound of large flower spikes. Incredibly unique, glowing light pink color brightens any garden. Different from other Agastache with large, dense blooms that cover the entire plant and appear a dynamic two toned with deeper colored flower buds contrasting nicely. Eye-catching in the mid to front garden border, also looks stunning in the container at home or at retail. Long blooming, spring through frost. TERRA NOVA® staff and visitor FAVORITE!
