Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

Incredibly heavily flowering, beautiful double echinacea, CARA MIA™ 'Sands' reminded us of a gorgeous white sand beach with its clean crisp look. Compact, but dense foliage support abundant flowering with glowing white petals, cream colored cone, and bright green eye. Well balanced, does not flop despite substantial bloom size and count. Fantastic in the landscape, high crown count, and bright unique double flowers make the CARA MIA™ series a standout.
