Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

## Description

Upright, basal branching with plenty of flower power. Forms a lovely, tapered bowl of flowers with stems long enough for cutting! 'Seashell' is a bright, warm shell-pink with a green eye. The flowers are large doubles and have an extremely long life in the garden. Foliage is a medium green and has an attractive gloss to it. Valuable for garden beds and containers. Excellent vigor, too. Fantastic in the landscape, high crown count, and bright unique double flowers make the CARA MIA™ series standout.
