Diseases: The plants can have leaf spot and crown rot if kept too moist

Day Length for Flowering: Long day

Do NOT bury the crown of the plug

Description

A refreshing and super cute dwarf Echinacea! Low growing but high flower power in a juicy, bright wine color. Double, anemone type flowers start off with a dark eyed center and expand into a clear Sangria color. Very appropriate for summer. DELIGHTFUL™ Sangria branches from the base with narrow, pointed foliage clasping the upright stems. Perfectly sized for container use, these echinacea look great at retail and are fantastic for summer displays.
