

Growing Recipe

LEUCANTHEMUM 'SUGAR BOWL'

Approximate Finish Time From Liner

 = Minimum  = Maximum

pH: 5.8 - 6.8

Fertilization Recommendations: 50 - 100 PPM (Weekly)

EC: 1.0 - 1.2

Light Levels: Full sun

Water Requirements: Dry moderately between watering

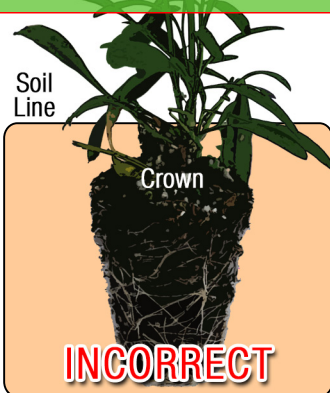

Hardiness Zones: 5 - 9

Possible Problems: Insect: Aphids and slugs are possible problems

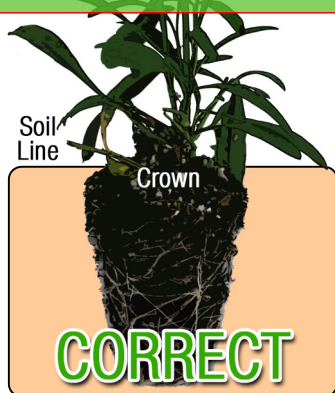

Habit: Mounding

Diseases: No major diseases

Day Length for Flowering: Facultative Long Day

Do NOT bury the crown of the plug

Description

This Leucanthemum couldn't get any sweeter! The abundant multilayered pure white flowers completely cover the foliage. Low to the ground but tight, heavy branching creates an extended bloom time with successive flowers opening on top of previous blooms. Wide base but petite habit lends itself well to sunny borders, up front and center in beds, or great for mixed containers.
